

**Suppliers of Cold Reduced Galvanised Zintec Hot Rolled Steel**

Wednesday, 15 November 2017

To Whom It May Concern: -

It is our immediate intention to acquire both ISO 14001 and OHSAS 18001 (soon to be ISO 45001).

While this will obviously take time and follow due process, I can advise that here and now, Steelco (UK) Ltd effectively have the requisite infrastructure and procedures in place to meet the criteria demanded by both the Environmental and Health & Safety Management Systems. To that end, we feel that securing both certificates should pose no issue and of course we will keep you updated as to our progress throughout.

In the interim, should you wish to gain an understanding as to our existing practises and how they agree with the guidelines set out by both ISO 14001 and OHSAS 18001, please do not hesitate to contact us.

Yours sincerely,

Matthew Fowle

Group Quality Manager
