

Suppliers of Cold Reduced Galvanised Zintec Hot Rolled Steel

9 May, 2019

To Whom It May Concern:

Re: RoHS Environment Legislation

RoHS compliance should only be requested for those applications for which it is essential, rather than a blanket request for compliance against all orders.

The Steel Mills are moving rapidly to comply, but it will be some time before all steel products are RoHS compliant. Therefore please state on your purchase orders when RoHS is required.

For those orders that require compliance we can confirm that the products do not exceed the relevant parts per million of each of the now 10 restricted substances. The list of substances are as follows: -

- **Cadmium (Cd):** < 100 ppm
- **Lead (Pb):** < 1000 ppm
- **Mercury (Hg):** < 1000 ppm
- **Hexavalent Chromium: (Cr VI)** < 1000 ppm
- **Polybrominated Biphenyls (PBB):** < 1000 ppm
- **Polybrominated Diphenyl Ethers (PBDE):** < 1000 ppm
- **Bis(2-Ethylhexyl) phthalate (DEHP):** < 1000 ppm
- **Benzyl butyl phthalate (BBP):** < 1000 ppm
- **Dibutyl phthalate (DBP):** < 1000 ppm
- **Diisobutyl phthalate (DIBP):** < 1000 ppm

Any queries please let me know.

Yours faithfully,
FOWLE & COMPANY LTD.
